## About Gautam Buddha University

Gautam Buddha University, established by the UP Act (9) of 2002, commenced its first academic session at its 511 acres lush green campus at Greater Noida in August 2008. The university encourages multidimensional growth through its education and training. GBU creates a vibrant community of intellectuals and entrepreneurs endowed with Character, Creativity, Competence and Commitment, who can inspire meaningful transformations to ensure holistic growth and development of the society.

## About School of ICT

The School of Information & Communication Technology, started its academic programmes from 2009-10. Currently it offers 5 year dual degree programmes in major streams of Electronics & Communication Engineering and Computer Science & Engineering 3 year M.Tech. (ICT) for Science Graduates, 2 year M.Tech. (ICT) for Engineering Graduates with four specializations at M.Tech. level, namely- Software Engineering, Intelligent Systems, Wireless Communication & Networks and VLSI Design and Ph.D. programme in different areas of ICT. The focus of the School is to impart quality education making the students competent to take on the challenges in ICT industry and R&D organizations. The school has well-qualified faculty and excellent infrastructure including laboratories equipped with state-of-the art analytical and software tools.

## About Workshop

Present time is the era of Information and Communication Technology. The Technology has virtually penetrated in every walk of life. The emergence of world wide web has added another dimension in moulding the young minds of indian society.

The school of ICT is conducting the workshop with the aim to make the faculty and students aware about the impact of ICT on society in general.
