Dr. Shiv Shankar, GBU  
Dr. Asha Pandey, GBU  
Dr. Pallavi Mittal, ITS Para Medical College,  
Ghaziabad  
Balkishan Safipur, Vice President, ESDA

### ABOUT THE PROGRAMME

It is now well-recognised that the Earth environment has been overexploited and misused by the anthropogenic activities globally. The signs of which are evident as accelerated climate change, loss of biodiversity, depletion of ozone layer and pollution in marine ecosystem. Living Planet Report has recently stated clearly that the Earth carrying capacity has already exceeded. Now there are two options with us: (i) either human beings should be ready to live alone on the planet Earth and arrange some technological foods like feeding a fibre rather than wheat and rice, or (ii) change the present behaviour of me alone and greed centric to we all need centric. Economists are now advising that the assessment of economic progress of the countries should be based on natural capital. This will give an idea that for the economic development how many species and natural capital have been used by a nation whose recovery is not possible. The year 2018 laid down the governance blue print for major environment issue of planet Earth. But there was as much news to cheer as some to worry about. The Earth Day celebration 2019 and the seminar is planned with the following objectives:

- to sensitize the students about the environmental issues of planet Earth,
- to remind us that we need to protect the planet Earth in our everyday lives as well ,and
- to find out unique and practical ways of sustainable human living on the planet Earth.

**EARTH DAY 2019 CELEBRATION**  
**Environmental Education and Sensitization**  
**Programme for Students**  
&  
**Seminar on**  
**Recent Environmental Challenges for Planet**  
**Earth by Anthropogenic Activities**  
**22<sup>nd</sup> April 2019**

**Organized by**  
Environment and Social Development Association  
(ESDA) Delhi  
and  
School of Vocational Studies and Applied Sciences  
Gautam Buddha University, Greater Noida

The Seminar is aimed to cater persons from Academic Institutes, Professionals from Industry, Government Organisations, Research Scholars, M. Tech. and M.Sc. students. Certificate of participation will be provided to all participants.

## ORGANISING COMMITTEE

Dr. Amit Awasthi, GBU  
Dr. Sushil Kumar, GBU  
Dr. Dipti Singh, GBU  
Dr. Amit Ujlayan, GBU  
Dr. Fahed Zulfeqarr, GBU  
Dr. Jaya Maitra, GBU  
Dr. Vandna Singh, GBU  
Dr. Bhawana Joshi, GBU  
Dr. Manmohan Singh Sisodia, GBU  
Dr. Rajesh, GBU  
Dr. Upma Singh, GBU  
Dr. Vivek Shukla, GBU  
Dr. C.M. Meena, Assistant Professor, BRAC, University of Delhi  
Mr. Kamal Singh, Vallabhbhai Patel Chest Institute, University of Delhi  
Mr. Anil Kumar, Vallabhbhai Patel Chest Institute, University of Delhi  
Mr. Narendra Bhati, Secretary, ESDA (U.P. Chapter)

## STUDENT ORGANISOR

Monali Varun, Karnika Singh, Bharat Upadhyay, Apurva, Niharika, Shalu, Dipali, Kirti Meenakshi, Manoj, Shekhar, Ankita Ghosh, Jyoti Chaprana

## CONTACT DETAILS

Dr. Pratiksha Saxena 9990097720  
pratiksha@gbu.ac.in  
Dr. Jitendra K. Nagar 9810086649

## REGISTRATION

To promote participation of all stakeholders, the registration is open to all **without any charge**, however, it is hoped that the participants will value the programme by contributing for healthy Earth as a responsible consumer.

## LOCATION

The Gautam Buddha University (GBU) is situated on Yamuna Expressway, Greater Noida in the National Capital Region of New Delhi, India and is very well connected through World Class Roads from New Delhi Airport, Railway Stations and Inter State Bus Terminals by less than an hour's drive.

Directions: <https://goo.gl/maps/Qky96nZdzHT2>

## ABOUT THE UNIVERSITY

The Gautam Buddha University (GBU), established by Uttar Pradesh Government in 511 acres lush green campus at Greater Noida encourages multidimensional growth through its education, training and research activities. The University envisions to become a world class centre for excellence in education and research. In order to promote value-based education, research and training, the University has established eight schools. School of Vocational Studies and Applied Sciences (SoVSAS) offers graduate, post graduate and doctoral level programme in Applied Physics, Applied Chemistry, Applied Mathematics, Environmental Science and Food Science and Technology.

## REGISTRATION FORM

One Day Seminar on

Recent Environment Challenges for Planet Earth  
by Anthropogenic Activities

22 April 2019
