

Eco Design Fair 2015: Launch of IGBC Student Chapter

Department of Architecture & Planning, Gautam Buddha University organized annual Event of Eco Design Fair, a creative Art Workshop on Nov 5th-7th 2015. Participation of Indian Green Building Council (IGBC) Delhi pioneer in advocating environmentally friendly building material and technologies has been the significant feature of this year celebration. Honourable Vice Chancellor Shri JP Sharma lighted lamp of inauguration together with Dean School of Engineering Dr. Anjana Solanki & other dignitaries. IGBC acting chairperson Mr. Arun Bhatia addressed students for being watchdog and advocate technologies and building materials which are environment friendly.

Chairman Mr. Arun Bhatia also announced launch of Students chapter of Indian Green Building Council in the University for Continued Industrial Interface on the environment friendly strategies with students. During the three days event at the Department, a workshop on Green buildings conducted by expert from IGBC, Mr Puneet Aggrawal in which students actively participated and won prizes with their innovative thoughts. Events continued for three days with workshop and experts lectures on Eco Design Strategies. Role Model Workshop also conducted in which team of students indulged in group discussion about different overlapping roles & strategies required to become a successful architect.

As part of student chapter, a delegation of students will visit Net Zero Designed Buildings in upcoming semester.
